

**Amit Mookim**  
**General Manager – South Asia**  
**QuintilesIMS**

Amit Mookim is heading the Consulting, Technology and Information Services business for QuintilesIMS for South Asia and the Centre of Excellence for transaction advisory across Asia Pacific. Amit's responsibility is to leverage QuintilesIMS' global and regional consulting, data and technology assets and people to assist life science, healthcare and insurance clients in their growth and transformation. Amit brings with him, a deep knowledge and understanding across key areas like strategy, expansion and growth, M&A, PE due diligence, market strategy and transformation.

Prior to QuintilesIMS, Amit was with KPMG India where he was leading the Healthcare vertical. Amit was one of the youngest Partners in KPMG and spent 8 years there helping the firm build the Private Equity Practice, the Strategy Practice and also the Healthcare Practice across Asia Pacific. He worked across India, Middle East, Africa, UK, USA, Japan, Korea, Indonesia, Malaysia, Hong Kong and Singapore as part of this role.

In his career span of 15 years, Amit has set up and led successful teams in Strategy, PE/ M&A Advisory and Healthcare. He has led more than 100 engagements during his career with Indian and multinational corporations, funding organizations like the World Bank and DFID, Governments, Private Equity and Venture funds and startups. He is a part of some of the leading industry bodies such as FICCI, NATHEALTH, and TiE. Amit has also authored a Thought Leadership for the Future of Healthcare forum which was launched by the President of India in 2014.

Amit has done his Bachelor in Economics from University of Kolkata and his MBA from FMS, Delhi. In his personal capacity, Amit actively promotes the cause of healthcare entrepreneurship in India and is currently mentoring 2 healthcare startups to grow and professionalise. Amit believes that fitness and endurance are two key aspects for personality development and is a long distance runner. He has participated in 11 marathons in the last 2 years across 3 countries.
